

Prep Parents,

To help get ready for the possibility of remote learning we have decided to use the app Edmodo.

The following instructions will help you get online with us.

1. Download the app Edmodo on any device.
2. Make an account for your child, using your child's name.
3. We will send out the class code when the time comes and you can add yourself to our class.
4. We will add resources, videos and information here. You can message us and post if you like.

Thanks so much for supporting us in this time.

Miss B and Miss Hansen.
